UNESCO HERITAGE SITE EXPEDITION & PHOTO ADVENTURE

# SEA OF CORTEZ

Follow Steinbeck's path into the protected waters of Cousteau's "world's aquarium." Active exploration and a menagerie of wildlife await you for that unforgettable lifetime adventure and photo bragging rights.

Steinbeck, Cousteau... now it's your turn to explore the "world's aquarium" on a small expedition cruise in the Sea of Cortez. Greet sea lions from the boat or skiff, or slip into a wetsuit for an even closer encounter. Take part in searching for and swimming with amazing whale sharks. Getting your sea legs is easy too—relax with toes in the sand, on a hike, or atop a mule through the canyons of Baja. Land and sea are a step, or kayak, away. Plenty of snorkeling with colorful marine life, experience the bounty that is Baja. The colors, the sounds, the life make this an adventurer's and photographer's canvas of dreams.
